Patriot Products, LLC has designed and produced a target elevator that is unsurpassed by all others. Designed to install quickly, these target carriages are the most rugged, durable, abuse resistant models you can find. Constructed of heavy gage structural steel, the units are Hot Dip Galvanized finished and assembled entirely of rust-free materials to enable a designed long life span. Smooth, quiet, counterbalanced and operational with easy pulling force to operate, these rugged, professionally designed and quality-built lift carriages are built to last.

As maintenance is expensive and time consuming, the Patriot Known-Distance Target Carriage is maintenance free. No grease, no oil, no adjustments, no time consuming and expensive labor man hours to maintain, the Patriot Known Distance Target Carriage is a truly user maintenance free target lifter. The self aligning guidance and drive train can even operate underwater.

MODEL #KDC84

Specifications: Holds 72" x 72" targets

Size: Military – 20" x 72" x 108"

Weight: *650 pounds

- Anchoring: 4 bolts with 5,100# tensile and 5,265# shear anchors
- Freestanding (no additional stabilizers required)
- Complete Urethane Polyester frame rust protection
- Stainless steel, Co-Polymers
- Heavy-duty stainless steel lift chains included
- Selectable counterweight system
- High wind stability

Options: Include motorized automatic operation with hardwired or wireless remote control and programmable sequence functions.

**Full turnkey installations - On site Delivery - Demolition and removal of existing targets
 Complete installation and Testing - Yearly maintenance contracts - Berm and Road Construction**
